# OUTDOOR & ENVIRONMENTAL EDUCATION PROGRAMS

Building Trust, Cooperation, Positive Peer Relationships,  
Environmental Stewardship, and Self Confidence!

## ABOUT US

The Boojum Institute for Experiential Education fosters positive peer relationships, self-confidence and environmental stewardship by connecting individuals with nature and each other. Serving youth organizations and students from kindergarten through college, it offers custom-designed programs – camping, rock climbing, high-ropes courses, eco activities and other fun yet challenging pursuits – among great rivers, expansive deserts, endless woodlands, remote beaches and mountain peaks. Boojum is a nonprofit accredited by the Association of Experiential Education, which ensures the highest standards of quality and safety. Founded in 1975, Boojum has benefited more than 80,000 people in its role as an educational partner and established an enduring reputation for value, integrity and fun.

## BRING YOUR GROUP TOGETHER!

Boojum will custom design a program to bring your group together and foster trust, cooperation, positive peer relationships, environmental stewardship, and self confidence.

Whether you choose residential dorms, tent camping, or an expedition style adventure, we can design a program that fits your needs. If traveling is a constraint, we can design a program that utilizes nearby green space such as a court-yard, ball field or nearby park. Programs are typically a half-day to five days in length.
